### **Ticket Information**

Tickets that you have purchased will be sent to you via the outlet you purchased from and will arrive by post or e-ticket depending on what you selected at checkout.

If you have applied for personal assistant ticket this will be issued on the day of the event along with your wristbands for the accessible viewing platforms (if you have requested them)

### **Wristband Types**

If you have requested a wristband to get you on to the accessible viewing platforms this will be issued when you arrive at the entrance gates – this will give you access to the platforms at all stages (subject to capacity) and also access to the facilities at the platforms. We have also added an accessible toilet at each of the info points across the site – you can also use these using your wristband

If you have just requested to use the accessible facilities (but not the viewing platforms) you will receive a different wristband which will enable you to use the facilities but will not have access to the platforms

Please screen shot the pass and show to security at the entrance to the accessible / blue badge car park where you will be issued a physical copy to put in your windscreen. ### **Viewing Platforms**

As previously mentioned, these are subject to capacity and spaces are on a first come first served basis. Please note unless prearranged and in exceptional circumstances (which we will have already pre-agreed) we will only allow one companion per viewing platform user. This is to make sure we can provide facilities for as many customers who need them as possible

Please note that the festival has a positive attitude to people with invisible disabilities and as such we are working to ensure that facilities are available to anyone who might need them.

### **New for 2022**

Anyone entering the festival on an accessible wristband will be able to bring in their own foldable chair for you to use around the site as we understand not everyone wishes to spend the event on the viewing platforms but also may need a seat to make their visit as comfortable as possible

### **Bringing Medicine / Food Onsite**

You will be able to bring medicines into the site and any food you might need for medical reasons, please make security aware before they carry out their searches on the way in. Security at some venues may ask for medics to attend for a second opinion on medication/food etc. before it is allowed inside. This is completely routine, and you should not feel alarmed.

We ask for only the amount of medicine needed for the duration of the event to be brought in.
